FLATLAND ANNOUNCES FULL CAST FOR SEQUEL

Stars of *Community* and *Star Trek* Join Cast

Austin, TX— October 10th, 2011

Star Trek Captain Kate Mulgrew and *Community's* Danny Pudi have joined the cast of "FLALAND 2: Sphereland".

Kate Mulgrew is best known as "Captain Janeway" from *Star Trek Voyager*. She will voice the role of the Over-Sphere, an ever-curious, four-dimensional explorer who imparts wisdom to other characters through riddles and questions.

"Casting Mrs. Mulgrew as the Over-Sphere is a dream come true. Her strength and talent perfectly compliments the character's role in the film." commented Writer/Director Dano Johnson.

Danny Pudi plays the role of Puncto, an excitable and humorous astronomer. As Abed Nadir on NBC's *Community*, Danny has developed a strong and passionate following. He was attracted to the project because of its educational mission.

"Danny brings the perfect match of intelligence and humor to the role. His character plays a very important role with the lessons of the movie and we know audiences will love his entertaining performance!" remarked producer Seth Caplan.

Mulgrew and Pudi complete the cast joining Kristen Bell, Michael York, Danica McKellar and Tony Hale.

The project is based on Edwin A. Abbott's classic novel [Flatland: A Romance of Many Dimensions](#) and Dionys Burger's sequel [Sphereland](#). Flatland is a world that exists entirely on a two-dimensional plane. Set on the eve of Flatland's first mission into their "outer-space," the story presents intriguing puzzles that challenge our understanding of mathematics, physics, and the shape of the universe. Full of action, humor and educational lessons, "Sphereland" will delight and educate audiences of all ages.

The project is currently in production in Austin, TX and will be completed in 2012. The program is part of an educational DVD to be used by teachers in the classroom.
